

NGUYEN VAN DAT

INTERN AI

✉ nvdat1601@gmail.com | 📞 +84 326808902 | 📍 Hung Yen, Vietnam

PROFESSIONAL SUMMARY

Third-year Computer Science student with research experience in Computer Vision and a publication in object detection. Experienced in building multimodal AI systems and LLM-based agents. Seeking an AI internship to apply and grow my skills in production-ready AI solutions..

EXPERIENCE

Vision And Learning Lab

Hung Yen, Vietnam

Undergraduate Researcher

2024 – Present

- Implemented and evaluated object detection models on aerial datasets.
- Design processes to improve data quality and enhance resilience in adverse weather conditions.
- Contributed to research on CNN-Transformer hybrid architectures for robust object detection.
- Applied DiffKD (Knowledge Diffusion for Distillation) to enhance feature representation and improve model performance

PROJECTS

Multimodal Sentiment Analysis

12/2025 – 2/2026

- Built an end-to-end multimodal pipeline combining text and image features using early, late, and hybrid fusion strategies.
- Achieved **74%** classification accuracy on the Twitter Sentiment Analysis dataset, outperforming single-modality baselines by **3%** through effective multimodal feature fusion.
- Tech stack: Python, PyTorch, FastAPI.

Intelligent Task Management Agent

3/2026 – Present

- Built an LLM-powered agent using tool-calling and planning strategies for task automation.
- Developed backend with FastAPI to support task parsing, deadline extraction, and priority ranking.
- Designed smart scheduling and reminder features based on task importance and deadlines.

EDUCATION

Hung Yen University of Technology and Education

Hung Yen, Vietnam

B.S. in Computer Science:

2023 – Present

- GPA: 3.63/4.0

TECHNICAL SKILLS

Programming languages: Python, C#

Frameworks & Libraries: PyTorch, TorchVision, Transformers, NumPy, Scikit-learn, FastAPI

Tools: Git, Linux, Docker, Jupyter, MySQL

ACHIEVEMENTS

- Talent Scholarship. (2023-2024)
- Talent Scholarship. (2024-2025)
- Talent Scholarship. (2025-2026)
- "Sinh Vien 5 Tot". (2025-2026)
- Third prize in the school-level science research competition. (2025-2026)
